Hospice Referral Tracking System

LEARN MORE

HRTS is a fully customized application that can be adjusted to fit your Hospices best practice and beyond.

Customized reporting automatically sends status updates and Daily status reports to marketing and managements team.

HIPAA secured access and delivery.

Fits any size organization

Accessible 24/7

The screenshot shows the main data entry form in the HeaRTS application. At the top, there are search fields for Medical Record #, Patient (Last, First), and City Name. The form is divided into several sections: Referring Information (Line of Business, Referral Date, Referral Source, Referral Name, Marketing Credit, Referring/Attending Physician), Admission Information (Status, Date, Time, Location, Nurse, Team, Additional Notes), Transfer Information (Transferred Yes/No, Previous Hospice), Presenting Information (Presented By, Presentation Date), and NTUC Information (NTUC Reason, NTUC Hospice, NTUC Notes). A 'Referral Status' section contains a large text area for Referral Notes. On the right side, there is a vertical menu with options: Pending, NTUC, Pending, Whiteboard, Referrals, and Admissions. A red line points from the text 'Fully Custom Fields' to the right side of the form.

Fully Custom Fields

This screenshot is similar to the one above but highlights specific features. The 'Line of Business' dropdown menu is open, showing options: Hospice, MCCM, and Palliative. A red box highlights this dropdown. On the right, the vertical menu is also highlighted with a red box, showing options: Pending, NTUC, Pending, Whiteboard, Referrals, and Admissions. A red line points from the text 'Custom Reports' to the report menu, and another red line points from the text 'Lines of Business' to the 'Line of Business' dropdown.
